

It was a 10, nothing else you could have done. Excellent organization, attention to detail, and listening to the voice of the customer and acting on behalf of the customer. I was very pleased with that. Maria was willing to really act on our behalf, even during difficult negotiations and requests that I made. There were definitely critical junctures and tests which had the performance not been exceptional, I would not have continued. A truly exceptional performance in representing our interests. I will return here when the time comes to sell the property
