

Thank you for a very successful and pleasant buying experience. It was a joy to work with you. During our first meeting, I was aware of your attention and careful listening as I described my situation and what I was looking for. You helped me overcome the obstacles of a VA mortgage and found a property quickly that satisfied all my objectives.

Thank you also for sound advice regarding the negotiations and remodeling decisions. I appreciate that you and Ben allowed me the time to interview a few designers and make an informed decision on who to work with.

I've worked with a variety of residential sales people over the years, and consider you to be the most professional, accessible and responsive agent I've worked with. I will recommend you if the opportunity presents itself, and I look forward to working with you again in the future if circumstances permit.
