

"I had a great overall experience using Rachel Valentino & Associates. I worked with Rachel and Ben. Both were exceptionally professional and responsive. They obviously work to share internal communication well, as each remained up to date on conversations I may have had with the other. I really appreciated how quickly they worked to take pictures and have my property listed immediately after a deal fell-through. They endeavor to anticipate the questions clients may have and even prompted me to prepare for parts of the process that were not intuitive---i.e. be sure to have a driver's license or picture ID at closing. Of course a seller always wants to let-go at a higher price, but Rachel was consistently honest and forthright about market conditions and that assisted greatly with moving the property quickly."
