

I would rate my overall experience as a 10. I was impressed by three things. How seriously you guys took my interest in finding a relatively small and less expensive piece of property. I am sure you have far larger customers. I bought a studio in Glover Park for \$203,000. And by how quickly Maria responded with exactly the information that I requested. That made me feel more confident as a first time home buyer. I also really appreciated Maria's assistance in the mortgage pre-qualification process. It thanks to her that I secured a better rate with less down.
