

Everything is super with the house. We can't thank you enough for being a part of making our home ownership dream come true. Especially with the time frames we were working with, we seemed to surpass the almost impossible. But with your help we did it. We have been hearing stories from our friends in different cities about their experiences with buying a home, and, increasingly, we are becoming appreciative of just how fortunate we were with our experience and outcome. I feel we still don't know the half of it. Thank you so much.

And the information you have been sending even after closing and the close contact after the sale is really amazing. In my opinion the company you are with is very fortunate to have you. And, while our DC network is still growing over the 6 months of being in the area (can you believe we are still unpacking and renovating?), we are recommending you to folks we know here who are house hunting or in need. Of course, please feel free to call on us for anything we can do!
