

Lauren was beyond helpful! She took the time to learn our need and wants. She was always prompt and very thorough. We hardly had any questions because she was on top of every detail. When we did, we had an answer right away. I have already recommended her to coworkers and friends. I could not have imagined a better home buying experience! We were most surprised with the time line of the entire process. We found the house within a week and closed 30 days after.
