

Rachel and her team helped me buy a rowhouse this fall, and I was very impressed by their work! I went with her initially because a friend had a great experience with her and I'd heard she was great with first-time homebuyers - and she definitely was! Working together with her team, they were very flexible about when we could see places, and then when we really liked a place, she gave great insight into the value of the place. We discussed how much to offer, contingencies, etc, and out of 11 bids got the house!! In addition to their work getting this place, she gave me great recommendations for who to work with for the mortgage, taxes, repair people, etc. I definitely recommend her, especially if this is your first house!
