

Maria was very quick to follow up - I would get email replies late at night or first thing in the morning, she was very supportive - even when putting an offer in on the first place I saw and only 3 days after meeting her for the first time (she could have thought I was just crazy), flexible - if she couldn't get me in to see a property, she was able to get one of her colleagues to show me, knowledgeable - knew the market, comps and the intricacies of the contracts to give me a better chance at getting my offer accepted and the contract, felt loyal - felt like she was working to get me the best deal and very personable/sweet/friendly. I felt Maria and her team listened to me to accomplish what I was hoping for and that they acted in an honest, trustworthy and professional manner on my behalf. I will recommend them to my family and friends.
