

We would rate our experience a 10 out of 10. Maria was wonderful, she was very resourceful, flexible, and catered to our needs and requirements. Maria definitely went out her way on more than one occasion to make sure we had the opportunity to view all the homes we were interested in, even if she couldn't show them herself, she coordinated with her colleagues so they could step in where possible. She never disappointed. Maria went above and beyond to learn about our home buying program, on short notice, to better serve us during our home buying experience. She even took time out to attend an evening class offered by our housing program to familiarize herself with the terms and conditions. Our goal was to purchase a new home in the DC area and she helped us to achieve that goal. Now that we own our home, Maria even checks in every few months to see how we are doing and how our renovations are coming along.
